

Your home is your biggest asset. Look after it together.

CommunityDesk helps the owners who run your complex keep the money, the repairs and the meetings in order. Everyone can see what's happening, and nobody has to carry it alone.

- ✓ Made for owners who volunteer as trustees
- ✓ Every owner sees their own account and what's going on
- ✓ Works on any phone, in six South African languages

Running a complex shouldn't be a second job

What volunteer trustees tell us, and what changes

- ! Doing the levies and the books after work, on a spreadsheet.

The Money Side, Simplified

Levies go out to every owner in one step, payments are recorded against the right home, and reminders follow up for you.

- ! Money questions and complaints in the WhatsApp group.

Everyone Sees Their Own Account

Owners check their balance and statement and pay from their phone, so fewer questions land with the trustees.

- ! Repairs that get reported, then forgotten.

Report It Once, Follow It to Fixed

Owners report with a photo, you get quotes from suppliers, and everyone can see when it's done.

- ! The yearly owners' meeting (AGM) feels like a legal minefield.

Meetings Done Properly

Notices, proxies and online voting, with the attendance and voting rules worked out for you and the minutes drafted.

- ! A big repair turns into a surprise special levy.

Plan for the Big Things

A 10-year maintenance plan and reserve fund, so roofs, paint and pumps are budgeted for in advance.

- ! When trustees change, the records leave with them.

Records Stay With the Complex

Documents, decisions and history in one place, ready for the next trustees on day one.

What It Costs

About R50 per home a month. A 30-home complex pays R1 500 a month.

- Email, SMS and WhatsApp messages included
- Minimum R750 a month. Prices exclude VAT.
- Two months free when you pay for the year
- First 60 days free, no card needed

Try it with your own complex, free for 60 days
